MEMORANDUM

In terms of the Government's policy of Ease of Doing Business, the Commission has provided the facility for the project proponents/architects to approach the Commission directly for conceptual consideration of their proposals with the intention that when the proposal is finally referred formally through the concerned local body, changes at that stage are minimal and the proposal could be considered expeditiously by the Commission.

It has, however been observed that many proposals are being referred for conceptual consideration again and again without the project proponent/ architect fully complying with past observations given by the Commission on their proposals. This results in undue delay in finalising the Commission's recommendations on such proposals and defeats the purpose of the facility extended by the Commission.

The matter was reviewed by the Commission at its meeting held on 21.08.2019, and it has now been decided that henceforth, if any proposal is referred for conceptual consideration more than twice, it would be taken up for consideration by the Commission for conceptual consideration on the third occasion onwards after a gap of forty five days after it was considered by the Commission for the second time.

(Ruby Kaushal)
Secretary
