

There is an open land located in 17-21 jhuggi block, Kalyan Puri, near Lal Bahadur Shastri Hospital, New Delhi-110091. Which is shown as an open land on DUSIB website and the place is marked as a park in the east Delhi map. But now this has become a parking lot. Has any official notice been issued for converting the park into a parking lot? If yes kindly provide the copy of notice?

Why are vehicles are parked in the park?

Why have people made kaccha (informal) settlements in the park?

Have you taken any action against this encroachment, before receiving this complaint?

Since the matter pertains to the MCD being the concerned local body, the RTI application is being transferred to MCD under section 6(3) of the RTI Act 2005, for providing information directly to the applicant under intimation to this office.
